

Social Service/Therapy Meetings & Appointments:

The Pottstown Regional Public Library recognizes the role it plays in the community as a safe meeting space. The library maintains rooms for library activities, specified public use and general seating areas throughout the building. We are in the process of developing further meeting space for private meetings and conferences. At this time, there are no entirely private meeting areas in our building.

We request that anyone seeking to use the library for service, group, or therapeutic meeting space be mindful of the physical limitations of our building, the needs of other patrons, and the library's role as a publicly-accessible space.

Due to limited space, the library cannot guarantee that space will be available for meetings and appointments. If a meeting becomes disruptive to staff, volunteers, or patrons, meeting participants may be asked to leave.

Please contact the Executive Director at [610-970-6551](tel:610-970-6551) with any questions or concerns.
